Warning: Contaminated Soup Containing Deadly Poison Found In Morgan

The Morgan County Health Department this week began a crash effort to locate a number of cans of contaminated Campbell's chicken vegetable soup thought to have been sold in Morgan County. The soup contains deadly botulism poisoning.

Morgan County Sanitary Engineer Walter Blevins said that 10 cases of the contaminated soup were located Monday and Tuesday at stores in West Liberty and throughout the county and at a local wholesale.

At least one family in West Liberty had bought a can of the soup. A local grocer said the chicken vegetable soup had been one of the best sellers in his store and it is feared that several cans of the contaminated soup have been sold to grocers and residents in rural areas.

Blevins said yesterday evening that he had checked 30 stores and other places of business for the soup Tuesday and Wednesday and the search continues today.

Blevins warned that consumption of the soup can be fatal. Botulism is the deadliest poison known to man. The soup may be identified, he said, by the code number of the can—07p13,701x.

Nor should the soup be fed to animals Blevins said. The contaminated cans should be returned to the grocery or wholesale where they were purchased and the price will be refunded.

COUNTY SCHOOLS OPEN ON MONDAY 2,495 ENROLLED

All Buses Running On Schedule Despite Damaged Highways

Morgan County schools opened Monday with an unofficial county-wide enrollment of 2,495, according to information supplied by principals of the county's high schools and elementary centers.

Robert S. Boggs, principal at Morgan County High and Elementary, reports an enrollment of approximately 1,075 in grades five through 12.

At West Liberty Elementary, Principal Neil Hunley listed an enrollment of 428. Ezel High and Grade School had an enrollment of 361, according to Principal Conrad Rowland.

Principal Glenn Whitt announced an enrollment of 161 at Wrigley Elementary.

William A. Patrick, principal at Crockett School, said he had an enrollment of 280. Principal Homer Jones said 190 were enrolled at Cannel City School.

All principals said they expect additional students to enroll during the next week or so.

All Buses Running

All school buses are running on schedule, officials report, despite damaged highways in two sections of the county.

School personnel at West Liberty and Crockett said there is no evidence that parents in the eastern part of the county are keeping their children home, though some parents had reportedly stated earlier they might not allow their children to ride school buses over badly damaged roads in that section. Roads in that part of the county have been severely damaged by huge coal trucks hauling coal from strip mine operations on tributaries of Elk Fork and Paint Creek.

Travel on the roads has been severely hampered in recent weeks and persons who live in the area say that unless repaired the roads will be "exceptionally dangerous" during bad weather.

In the northwestern section of Morgan, school buses had to detour about 16 miles through the edges of (Continued on page five)

11 Truckers Cited In Three Counties

Three agents of the Motor Transportation Department checked trucks in Elliott, Johnson and Floyd counties Tuesday and cited 11 for violating motor transportation laws.

Lindbergh Amys, area director of the department, said four truckers caught in Elliott county were adjudged guilty by Elliott County Judge N. L. Adkins. Two were fined for overweight, one for improper use of tags and one for no cab card.

The motor transportation agents cited seven coal trucks in Johnson county who were caught hauling overweight loads of coal from strip mine operations in Morgan, and referred the cases to Johnson County Judge Blevins, who has five days to act on the cases.

In Floyd County, a coal truck caught using stolen tags was placed under \$1,500 bond by Floyd County Judge Stumbo and the truck was impounded.

BY FRANK ASHLEY

100 MORGAN DEMOCRATS AT JACKSON RALLY

About a hundred Morgan county Democrats attended the 7th District rally for state party nominees at Jackson last Saturday. Hundreds of area Democrats fanned away the heat in the Breathitt County Auditorium to attend the rally, the district's first since Lt. Gov. Wendell Ford soundly

trounced Combs in the Democratic gubernatorial primary last May.

Several speakers lightly acknowledged the breach between Ford Democrats and Combs Democrats caused by the bitter primary, but all called for unity against Republicans this November.

Appearing on the guest platform in the show of unity were Ford, his running mate, Julian Carroll; Combs; Perkins; Ed Hancock, nominee for state clerk of the Court of Appeals; and Wendell Butler, nominee for commissioner of agriculture, and Mrs. Marie Turner, matron of Breathitt County's powerful Turner family.

Planning For Festival Gaining Momentum

Planning for Morgan County's first annual Sorghum Festival, underway here since last spring's successful Dogwood Festival, gained momentum Monday evening at a planning committee meeting at the home of Mr. and Mrs. Buster Phillips.

Planned primarily to provide a sales outlet for Morgan County handicrafts and to show off mountain customs, the event will offer a wide variety of activities, antique displays, plenty of sorghum and sorghum products for sale, and a crowd of several thousand is anticipated.

To be held at West Liberty Friday and Saturday, Oct. 22 and 23, the Sorghum Festival will be an expanded version of the Dogwood Festival. Mrs. Kathleen Blair and Mrs. Charleen Spencer, co-chairmen of the planning committee, said, however, that booths, displays, and most other activities will be at the Morgan County High School athletic field this year.

Downtown business win-

dows will be decorated with antiques and other items to carry out the autumn theme of the festival and a trophy will be awarded to the business having the most original window display. The trophy will be a rotating award and will be held by the winner until the next festival.

Visitors will be treated to a view of an operating, mule-driven sorghum mill which will be erected on Main Street. An old-time blacksmith shop and a grist mill also will be in operation on Main Street during the festival. Willie Fyffe, who will erect and operate the grist mill will grind and sell meal on the spot.

Craft booths where Morgan artisans will sell their wares will be operated at the athletic field, along with booths for the sale of home-baked sorghum products, candies, cakes, etc.

On sale throughout the festival will be pre-packaged sorghum in collector's jars and sorghum cookbooks. A feature of the festival

will be an old-time country store, complete with old-time store fixtures, bonneted sales ladies, and a wealth of antique items, jellies, shuck beans, dried peppers, pickled corn, homemade soap, dried apples, gourds, sweet potatoes, etc., for sale.

The country store will be located in the vocational agriculture building near the athletic field. Persons with items they would like to have sold in the store are asked to contact Ethel Marie Phillips, Ruth Conover, or Helen Wells. Anyone who would like to loan antique store fixtures to make the store an authentic replica should call one of the above ladies.

Antique sales booths also will be a feature at the festival and persons wishing to erect booths, either for sale of antiques or handicrafts, should contact Mrs. Kathleen Blair prior to the festival.

Organizations wishing to erect booths for the sale of foods and refreshments are asked to contact Mrs. Alberta Hutchinson.

Also, anyone with yellow or white corn for sale is asked to contact Mrs. Blair or Mrs. Charleen Spencer. Knife swapping is tentatively set for the West Liberty Elementary School auditorium.

Attending the Monday meeting at the Phillips home were Mrs. Blair, Mrs. Spencer, Graden Walter, Jr., Glen Woodward, Lanny Franklin, Wendell Sherman, Albert Hutchinson, Ruth Conover, Mary Ann Foudray, Barbara Perry, Helen Price Stacy, and Mrs. Phillips.

Committee chairmen appointed are — Art and Publicity — Helen Price Stacy, Wendell Sherman, Glen Woodward, Lanny Franklin, and Earl Kinner, Jr.

Parade Marshal — Graden Walter, Jr.

AUTUMN SIGNS

A few signs of autumn are seen today.

The wood thrush and tanager have gone away.

Yet some summer birds linger still.

Including our beloved old whippoorwill.

Golden rod is yellow along the road.

And fruit trees carry a heavy load.

Some leaves are turning a brighter hue.

Dogwood, sumac, and gum tree too.

Quiet summer is slipping by.

Fall crickets and katydids do not lie.

UK VETERINARIAN GIVES ADVICE FOR HORSEMEN ON VEE SITUATION

Kentucky horse owners should keep a close watch on development of Venezuelan Equine Encephalomyelitis (VEE), but there's no reason to panic, according to Dr. Wm. Wise, veterinarian with UK College of Agriculture's Cooperative Extension Service.

VEE, a usually-fatal disease of horses, reached the epidemic stage in Texas in July. But quarantine, vaccination,

and wide spread spraying to control mosquitoes that carry the virus seem to have stopped the spread of VEE at this time.

Control of mosquitoes where horses are kept, the use of common sense about horses, and cooperation with the Kentucky horse census now being taken are the smartest moves for Kentucky horsemen at this time.

The Kentucky horse census is an attempt to gather the necessary information needed to make an accurate request for vaccine in the event VEE threatens Kentucky horses. If you own horses, please contact your local county Cooperative Extension Service, giving them your name, address, and number of horses - donkeys - mules, etc. In Morgan County call or write Morgan County Extension Service, Box 35, West Liberty, Telephone 743-3292.

VEE, which attacks the nervous system results in a kind of sleeping sickness. Signs of sickness include listlessness, a high fever, and a drifting gait. Sick horses may be observed pressing their head against a post or building (not to be confused with normal scratching that horses do). In advanced stages, horses may be seen convulsively moving in circles until they fall. Death usually occurs in six to eight days. However, not all horses with VEE have the usual symptoms; some animals die, having only shown depression and general weakness.

Dr. Wise suggests that horse owners continue to take part in horse shows, etc., but take the precaution of noting that out-of-state horses have recent health certificates and that they have a normal temperature range. Care should be taken to control mosquitoes in areas where horses are housed.

It Will Tell

Midway Junior College Offers Scholarships To Girls For Fall Term

Girl graduates of high schools who have given up hope of attending college this fall because of lack of finances are being offered scholarships at Midway Junior College.

Strange as it may seem Midway Junior College still has 80 scholarships open for girls. These can be a full or partial scholarship depending upon the financial situation of the individual girl and her family.

Five courses of study are offered at Midway Junior College — liberal arts, teacher education, commerce, home economics and nursing.

The one requirement for all scholarships is that the girl must be willing to work 12 hours each week at the college. Another requirement for the college students is that they must have maintained an average grade of C or above during their high school years.

Girls interested in scholarships should write the Office of Admissions and Financial Aid, Midway Junior College, Midway, Kentucky 40347. Registration is August 29.

KENTUCKY TAKES LEAD IN MINING

FRANKFORT, KY. — Because of the huge increase in strip-mining, Kentucky now produces more coal than West Virginia. This statement was made by Robert Halcomb, a former Pike county underground operator who switched to strip-mining this year. Halcomb says about 80 million tons of coal will be extracted this year in Kentucky by strip-mining and augar mining. This would be 18 million tons more than last year's surface mining production and would bring the state's total coal production to 145 million tons as compared to West Virginia's 135 million tons.

LETTER TO THE EDITOR

Enclosed my check for six dollars. Please send me a year's subscription to your paper, The Courier.

I recently visited in Rowan and Morgan Counties and attended the Dogwood Festival, enjoying it very much. As a matter of fact I am planning to include it in a short article.

I am most interested in the early history of Morgan County, and would like to get in touch with anyone who could put me in touch with others who might have stories or family traditions of that area.

LETTER OF THANKS

The Courier—

May I add a couple of items to your (or our) good paper? First, a thank you note to the many, both long and short distance telephone callers who phoned me while I was in the hospital last week; also to the many well-wishers who sent cards, and to the many visitors who called on me. May God's richest blessings shower over all.

Secondly, in our Adult Sunday school class at the First Church of God at Caneys last Sunday, the lesson being on "Alcohol and Society," we had 14 present of which 11 had never tasted alcohol—which I think is a record to be proud of. Has any class a better percentage?

Over 115 million persons in America are 15 years of age and older—the age within which all drinking starts. One in 13 drinkers becomes an alcoholic.

Many thanks.

HILL DEMOS. . .

(Continued from page one)

left the auditorium immediately after their brief remarks, Perkins simply shaking hands and walking out, and Combs making the apology, "I can't stay, I'm still working for a living."

During his remarks, Combs urged his fellow mountaineers to support the entire Democratic ticket this fall but did not mention Ford personally or any of the other candidates.

"There are some that will be surprised to see me here and some displeased," Combs said, "but I came because I thought I ought to and because I wanted to."

He requested that his appearance at the rally set a precedent in Kentucky Democratic politics that in the future, candidates losing primary elections will support the winners.

"We ought not be poor losers," Combs said, thanking his many supporters in the audience for their long-time support. "We ought to settle our squabbles and hassles within the confines of the Democratic Party."

Combs noted that the national political spotlight will be on Kentucky's November gubernatorial election—the only one in the nation—and said that if the Democrats lose, Kentucky will no longer be considered a Democratic state.

Perkins, speaking to friends and neighbors who have elected him to Congress for years, said that Ford had "considerable experience" and "is better equipped to take over the reins of state government than the others, by far."

Perkins, noting that Eastern Kentucky has always been Combs' country, said the "sentiment" in his native district is strong for Ford. He asked his supporters to turn out a 25,000 vote for the Democrats in November.

Ford and Carroll, both from Western Kentucky, courted the mountain voters who handed Combs a majority in the primary, promising new jobs, new roads and a better economy if they win.

Claiming close political kinship to both Combs and Perkins, the top Democratic nominees talked about the mountain staples, "honey" and "shucky beans" and promised that if elected their administration would "still know where Eastern Kentucky is."

Ford took potshots at his Republican opponent, Tom Emberton, linking him and Republican Gov. Louie B. Nunn to "Republican economics" in several obvious references to President Nixon's recent wage and price freeze.

"Nixon, Nunn and Emberton now admit that the economy is sick," Ford said. "I've known it for a long time. . . . Are they now trying to do something about it because it's an election year?"

Ford charged the state Republicans with spending thousands of dollars on election-year employees who do not go to work and on "election-year blacktop."

Ford said the Nunn administration has not used the auto license increase of from \$5 to \$12.50 to build roads as it promised and called Emberton's recently acclaimed Republican highway paving "record" a "record low."

Ford said Emberton's "record" by the Nunn administration of 3,000 miles of paved roads during the past 36 months has been surpassed in recent years by Combs and other Democratic governors who blacktopped "more

than 5,000 miles of roads every year."

Ford received loud applause when he dramatically displayed two auto license plates, one old and one new, and reminded the crowd. "The Democratic era plate cost you \$5, this one cost \$12.50."

DEM CO-CHM. ARE NAMED IN WOLFE

FRANKFORT, Ky. — State Democratic Campaign Chairman Sen. Walter "Dee" Hudleston has announced the appointment of Bert Bumgardner and A. R. Shockey as Co-Chairmen of the Wolfe County Democratic Campaign Committee.

Polluted air serves many purposes as well as pure air does, as, for example, it is used as transmission of power in operating tools for ripping up newly paved streets; it makes possible the use of suction pumps; it is used to inflate tires, and it keeps our bodies from exploding.

Since the first Heart Fund Campaign was conducted nationally in 1949, there has been a decline of about 20 percent in the death rate from heart and blood vessel diseases applying to persons below age 65.
